

KELBA KLP-G-3000-1200

Galvanised Platform Scale

Kelba's KLP-G-3000-1200 x 1200mm NMI (Trade Approved) platform scale provides low cost fast accurate weighing of bulk goods. Built in Australia the KLP-G-3000-1200 is built using a simple multiple cross bracing using 8 x 10mm x 60mm flat bar construction, eliminates any deflection. This also allows for odd size custom scales to be made simply and at a cost effective price. It's clean under plate design eliminates product entrapment. Easy electronic corner adjustment can be done via accessing the stainless steel junction box via access hatch in the top deck.
