

Walk-on **BARIATRIC SCALE**

- *Purpose Built for Bariatric Patients*
- *High 300kg Weighing Capacity*
- *Low Profile Weighing Platform*
- *High Strength Stainless Steel Handrails*
- *Dual Power Supply*

Features

High Quality Construction

Maximum strength but still highly portable

Large Weighing Capacity

300kg maximum weight

Low Profile Platform

The low platform profile ensures a comfortable and safe weighing experience for bariatric patients when stepping on and off the scale

High Accuracy

100 gram increments (0.1 kg)

Numeric Keypad

Enter weight targets or the weights easily

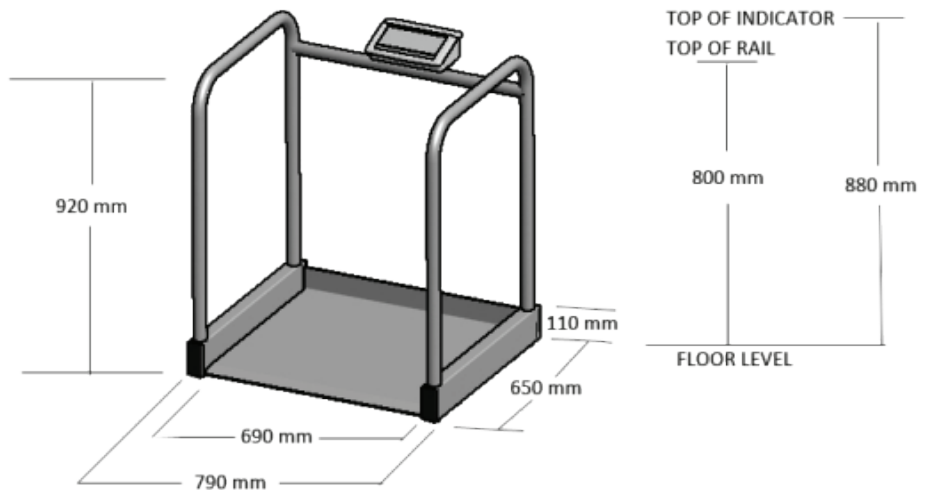

High Strength Handrails

Strong stainless steel handrails allows better stability support for patients

Dual Power Supply

Optional AC adaptor or battery operation
