

# Catapult<sup>®</sup> 5000

Shipping Scales

## *The Heavy-Duty Shipping Scale that Combines Utility and Economy*

The low-profile Catapult 5000 is an economical shipping scale that's ideal for your shipping and receiving needs, as well as other general weighing applications. A sturdy stainless steel platform that can withstand heavy loads, an easy-to-read LED screen and an optional rechargeable battery make Catapult 5000 a great scale for small businesses, mail rooms, warehouses and even industrial environments.

### *Standard Features Include:*

- **The Heavy-Duty Platform Accommodates Both Large and Small Packages of Varying Shapes**  
Built-to-last with a large stainless steel platform, the Catapult 5000 is ideal for weighing heavy loads and packages of varying sizes—and can even be used in industrial environments.
- **The Bright LED Display Enables the Scale to be Used in Any Lighting Condition**  
The Catapult 5000 is equipped with a LED display and its brightness can be adjusted to show results clearly—even in less than optimal lighting conditions.
- **Versatile Data Transfer and Power Options Enhance Operation**  
The user experience is enhanced with a RS232 interface which enables easy data transfer, and a rechargeable battery which guarantees hours of uninterrupted operation and portability (both optional).

Weighing Units	kg, g, lb											
Display	6-digit, 7-segment red LED, 20 mm high digits											
Indicator Constr.	ABS housing											
Keyboard	Four tactile mechanical keys											
Zero Range	2% or 100% of full scale capacity											
Tare Range	Full capacity by subtraction											
Application Modes	Weighing, Dynamic/Display Hold, Accumulation											
Stabilization Time	1 second											
Auto-Zero Tracking	Off, 0.5, 1 or 3 divisions											
Overload Capacity	125% of rated capacity											
Power	AC adapter (included) or rechargeable lead-acid battery (not included)											
Battery Life	72 hours of continuous use with a 12-hour recharge time											
Calibration	User-selectable digital external span calibration (5kg to 100% capacity)											
Communication	RS232 (available as an accessory)											
Operating Temp. Range	-10° C to 40° C											
Base Construction	Stainless steel platform, painted carbon steel frame											
Base Dimensions (W × L × H)	310 × 270 × 40 mm				520 × 400 × 75 mm				900 × 600 × 80 mm			
Column Constr.	Stainless steel											
Net Weight	4 kg				13.5 kg				28 kg			
Shipping Weight	5 kg				15 kg				32 kg			
Shipping Dimens.	400 × 365 × 210 mm				600 × 480 × 220 mm				1022 × 687 × 247 mm			

## Other Standard Features and Equipment

Low-profile design, hardware configuration lockout switch, user-selectable span calibration points, averaging level, auto zero-tracking, auto shut-off

## Compliance

- **Product Safety:** IEC/EN 61010-1
- **Electromagnetic Compatibility:** IEC/EN 61326-1 Class B, basic environments
